

Energy Management Best Practices During COVID-19

FOR CONDOS AND APARTMENTS

With residents home more often, AOA's may be seeing a surge in electricity usage. Now is a good time to be more energy efficient. Follow these quick tips to save energy and money right now:

Turn off or set back common area lighting and A/C

Set back or turn off water feature pumps and modify pool pumping with VFDs on motors

Work with AOA board, resident managers and maintenance staff to seek out investment opportunities for larger energy-saving projects (see below)

Your residents can also do their part in managing their energy usage and lowering their electricity bills. Please pass along these energy-saving tips:

- Work smarter, not longer hours
- Take advantage of natural light
- Set your computer for energy savings
- Use fans or open windows instead of the air conditioner
- Use an advanced power strip
- Use energy efficient equipment
- Minimize your gadgets
- Any lighting you must use, use wisely
- Keep showers short and sweet
- Wash your clothes with cold water, not hot
- **Consider getting a Hawai'i Energy home energy kit!**

INVESTMENT OPPORTUNITIES

- Install LED lighting in common areas
- Install VFDs on pool pumps
- Upgrade booster pumps
- Submetering
